
Thank you,
Friends of the
Olympia Farmer's
Market!

Dear Friends of the Olympia Farmers Market,

I am overjoyed and incredibly grateful to receive the Robert J. Meyer Scholarship for the 2015-2016 academic year. I am very excited to return to The Evergreen State College to study Ecological Agriculture in preparation for my work as a female agriculturalist, environmental and social justice activist. I feel so blessed to have the support of my community and the Friends of the Olympia Farmers Market, without which I would not be able to return to school. I feel empowered to achieve my goals of learning how to grow healthy food sustainably to feed our community and look forward to working with the people of Olympia to create a healthy future for everyone. Thank you for your support and encouragement; it has made a world of difference in my life and I hope to spread this positivity wherever I go.

Many thanks and blessings,
Emily Woody
